INTRODUCTION

Part 1 of the All-in-One Workbook consists of worksheets that provide additional support for the skills learned in the grammar chapters of Prentice Hall Writing Coach. Each worksheet provides students with instruction on a grammar skill. The worksheets then provide two practice activities on the skill as well as a speaking and writing activity.

The extra practice provided in these worksheets focuses on the following areas:

• **Grammar**: These worksheets provide students with practice learning how to identify and use nouns, pronouns, verbs, adjectives, adverbs, prepositions, conjunctions, and interjections. They also help students identify basic sentence parts as well as phrases and clauses.

• **Usage**: These worksheets provide practice with using verbs and pronouns, making words agree, and using modifiers.

• **Mechanics**: These worksheets give students practice with proper use of punctuation and capitalization in their sentences.

The prepositional phrase of the floor tells which creaking.

An adverb (or adverbial) phrase modifies a verb, adjective, or adverb. It tells where, when, in what way, or to what extent. Adverb phrases aren't always near the words they modify in a sentence.

A verb expresses the action in the sentence, but a verbal acts as another part of speech, such as a noun or adjective. Participles and participial phrases are examples of verbals. A participle is a form of a verb used most often as an adjective.

66 CLASSIFYING THE FOUR FUNCTIONS OF A SENTENCE

A declarative sentence states, or declares, an idea. An interrogative sentence asks a question. An imperative sentence gives an order, a command, or a direction. An exclamatory sentence conveys strong emotion.

Look at these examples of the four functions of a sentence:

<table>
<thead>
<tr>
<th>Declarative States an idea and ends with a period</th>
<th>My aunt visited us.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interrogative  Asks a question; ends with a question mark</td>
<td>Who came to visit?</td>
</tr>
<tr>
<td>Imperative  Gives an order, command, or direction; ends with a period or exclamation mark</td>
<td>Please open the door. Hurry up!</td>
</tr>
<tr>
<td>Exclamatory  Conveys strong emotion; ends with an exclamation mark</td>
<td>I’m thrilled to see you!</td>
</tr>
</tbody>
</table>

**COMBINING SENTENCE PARTS**

Sentences can be combined by using a compound subject, a compound verb, or a compound object. Join two main clauses to create a compound sentence.

Look at these examples of how sentences can be combined:

<table>
<thead>
<tr>
<th>Compound subject</th>
<th>Leila wears glasses.</th>
<th>Danny wears glasses.</th>
<th>Leila and Danny wear glasses.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Compound verb</td>
<td>Nicole reads German.</td>
<td>Nicole speaks German.</td>
<td>Nicole reads and speaks German.</td>
</tr>
<tr>
<td>Compound direct object</td>
<td>That machine slices meat.</td>
<td>That machine slices cheese.</td>
<td>That machine slices meat and cheese.</td>
</tr>
<tr>
<td>Compound sentence</td>
<td>Lora did a lot of research.</td>
<td>Her report was impressive.</td>
<td>Lora did a lot of research, so her report was impressive.</td>
</tr>
</tbody>
</table>

The two main clauses in a compound sentence can be joined with a comma and a coordinating conjunction (and, but, for, or, so, yet) or a colon.

**Practice A  Identifying Compound Parts in Sentences**

68 JOINING CLAUSES

Sentences can be combined by changing one of them into a subordinate clause. Sentences can also be combined by changing one of them into a phrase.

If an idea in one sentence depends on an idea in another, the two sentences can be combined into a complex sentence with a main and subordinate clause.

Two Sentences: Dante was pleased. He had learned something new.
Combined: Dante was pleased because he had learned something new.

If one sentence adds details to another sentence, the two sentences can be combined by changing one of the sentences into a phrase:

Two Sentences: Our class took a field trip. We went to a local college.
Combined: Our class took a field trip to a local college.

Practice A Identifying Subordinate Clauses

VARYING SENTENCE LENGTH

Varying the length of sentences makes writing lively and interesting to read. Several short sentences can be combined to include one long and one short sentence.

Short Sentences: Lee drove to the park. He parked the car. We could hear the music.
Two Sentences: Lee drove to the park, and he parked the car. We could hear the music.

A long sentence can be broken into shorter sentences:

Long Sentence: While she was watching TV, Leah dropped the remote, and now we can’t find it.
Two Sentences: While she was watching TV, Leah dropped the remote and now we can’t find it.

Practice A  Varying Sentence Length by Breaking Longer Sentences
Read the sentences. Then, revise each one as two or more shorter sentences. Circle a comma to change it to a period. Underline a letter to show a capital letter. Cross out a word to omit it.

Example: After she got home, Julia brought in the mail, and then she walked the dog.

70 **VARYING SENTENCE BEGINNINGS**

Sentence beginnings can be varied by reversing the traditional subject-verb order or starting the sentence with an adverb or a phrase.

Changing the beginning of your sentences can add variety.

<table>
<thead>
<tr>
<th>Sentence Beginning</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Noun</td>
<td>Dogs, fortunately, are easy to train.</td>
</tr>
<tr>
<td>Adverb</td>
<td>Fortunately, dogs are easy to train.</td>
</tr>

</tr>
<tr>
<td>Gerund</td>

</tr>
</tbody>
</table>

**Practice A  Identifying Sentence Beginnings**

71 CORRECTING FRAGMENTS

A fragment is a group of words that does not express a complete thought.
Fragments are not complete sentences. They may be missing a subject, a verb, or both.

<table>
<thead>
<tr>
<th>No subject</th>
<th>Saw my friend at school.</th>
<th>I saw my friend at school.</th>
</tr>
</thead>
<tbody>
<tr>
<td>No verb</td>
<td>My friend from band.</td>
<td>My friend from band plays the tuba.</td>
</tr>
<tr>
<td>No subject, no verb</td>
<td>At band practice.</td>
<td>I saw her at band practice.</td>
</tr>
</tbody>
</table>

If a fragment lacks a subject and verb, the missing parts can be added to make a complete sentence. The fragment can also be joined to a nearby sentence.

Practice A Recognizing Fragments
Read the groups of words. Write whether the words are a fragment or sentence.

Example: Learned about sharks.

72 CORRECTING CLAUSE FRAGMENTS

A subordinate clause should not be capitalized and punctuated as if it were a sentence. Subordinate clauses do not express complete thoughts and cannot stand alone as sentences. When a subordinate clause is capitalized and punctuated like a sentence, it is a clause fragment. The fragment can be attached to a nearby sentence or words can be added to make a complete sentence. Look at these examples:

<table>
<thead>
<tr>
<th>Clause Fragment</th>
<th>Complete Sentence</th>
</tr>
</thead>
<tbody>
<tr>
<td>When I got home, I fed the dog.</td>

73 RUN-ON SENTENCES

A run-on is two or more complete sentences that are not properly joined or separated. There are two types of run-ons.

PROPERLY PLACING MODIFIERS

A modifier should be placed as close as possible to the word it describes.
A modifier is a phrase or clause that acts as an adjective or adverb. When a modifier is not close to the word it modifies, a sentence may be odd or unclear. Revise the sentence by placing the modifier closer to the word it modifies:

<table>
<thead>
<tr>
<th>Incorrect Double Negative</th>
<th>Corrected With One Negative</th>
</tr>

78 USING REGULAR VERBS

The past and past participle of a regular verb are formed by adding -ed or -d to the present form. Most verbs are regular. To form their past and past participle forms, you just add -ed to the present form. If the verb ends in e, you just add d to the present form. With some verbs, you may need to double the last letter before adding -ed.

<table>

79 USING IRREGULAR VERBS

The past and past participle of an irregular verb are not formed by adding -ed or -d to the present tense form.

Many common verbs are irregular. Their past and past participle forms are created by changing the spelling of the present form. You may need to memorize the correct forms of irregular verbs or check a dictionary entry for the verb. The chart below shows three different types of irregular verbs.

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>

IDENTIFYING THE BASIC FORMS OF THE SIX TENSES

The tense of a verb shows the time of the action or state of being. Verbs have six tenses that show whether an action is happening in the present, past, or future. If the verb shows that the action is going on over a period of time, use the present perfect, past perfect, or future perfect tense. The chart below shows the basic form of the six tenses.

<table>
<thead>
<tr>

CONJUGATING THE BASIC FORMS OF VERBS

A conjugation is a list of the singular and plural forms of a verb in a particular tense. You already know that verbs have six tenses. Each of the six tenses has six forms. When you write out all of the forms of the verb in each of the tenses, you are conjugating the verb. The chart below shows a conjugation of the forms of the verb speak for four tenses.

<table>
<thead>
<tr>
<th>Tense</th>

<tbody>
<tr>
<td>Present</td>
<td>I speak.</td>

The future is formed with will be. The present participle is being. The past participle is (has) been. In the chart below, notice how the parts of be are used in four different tenses in both singular (one) and plural (more than one) forms.

<table>
<thead>
<tr>

83 RECOGNIZING THE PROGRESSIVE TENSE OF VERBS

The progressive tense, or form, of a verb shows an action or condition that is ongoing. The progressive form of a verb describes an event that is in progress. You create the progressive form by using the present participle of a verb: the form that ends in -ing. You also add a form of the verb be. The chart below shows the progressive forms of the verb change.

<table>
<thead>
<tr>
<th>Progressive Tense</th>
<th>Be + Present Participle</th>
<th>Progressive Tense</th>
<th>Be + Present Participle</th>
</tr>
</thead>
<tbody>
<tr>
<td>Present</td>
<td>I am changing.</td>
<td>Present perfect</td>
<td>I have been changing.</td>
</tr>
<tr>
<td>Past</td>
<td>I was changing.</td>
<td>Past perfect</td>
<td>I had been changing.</td>
</tr>
<tr>
<td>Future</td>
<td>I will be changing.</td>
<td>Future perfect</td>
<td>I will have been changing.</td>
</tr>
</tbody>
</table>

Show that you recognize progressive tenses of verbs by completing the following exercises.

84 CONJUGATING PROGRESSIVE TENSES

To conjugate the progressive tenses of a verb, add the present participle of the verb to the basic forms of be.

With all verbs, regular or irregular, you create the progressive tense by using the present participle—the one that ends in -ing—with different forms of the verb be.

Here are examples of the six progressive tenses. Notice how the form of be changes in progressive tenses.

<table>
<thead>
<tr>
<th>Tense</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>Present progressive</td>
<td>Maria is selling her car.</td>
</tr>
<tr>
<td>Past progressive</td>
<td>She was hoping to get a good price for it.</td>
</tr>
<tr>
<td>Future progressive</td>
<td>She will be advertising the car in the local newspaper.</td>

Write three sentences describing a job or errand you handled. Use verbs in different progressive tenses in your sentences. Read your sentences aloud to a partner. Have your partner identify the tense of each verb you used. Then, switch roles with your partner.
85 IDENTIFYING ACTIVE AND PASSIVE VOICE

The voice of a verb shows whether or not the subject is performing the action. A verb is in the active voice when its subject performs the action. A verb is in the passive voice when its subject does not perform the action.

You can recognize a passive verb because it is always a verb phrase made from a form of be and a past participle. The performer of the action may not always be named in a passive voice sentence.

<table>
<thead>
<tr>
<th>Active voice</th>
<th>Passive voice</th>
</tr>
</thead>
<tbody>
<tr>
<td>Karen cooked dinner for us.</td>
<td>Our dinner was cooked by Karen.</td>
</tr>
<tr>
<td></td>
<td>Our dinner has been cooked. (No performer is named.)</td>
</tr>
</tbody>
</table>

Show that you understand and can use active and passive voice by completing the following exercises.

86  TROUBLESOME VERBS

Some verbs cause writers problems. You must learn to use these verbs correctly. Remember these rules about troublesome verbs.

Use *isn’t*, not *ain’t*.
Use *did*, not *done*, as the past tense of *do*.
Use *saw*, not *seen*, as the past tense of *see*.
Use *dragged*, not *drug*, as the past tense of *drag*.
The past tense of *lie* is *lay*, not *laid*.
The past participle of *lie* is *lain*, not *laid*.
Use *gone* with a helping verb, not *went*.
Use *set*, not *sat*, to mean “placed something.”
Use *should have*, not *should of*.
Use *said* to report someone’s words, not *says*.

**Practice A  Using the Correct Verb**
Read the sentences. Then, circle the correct form of the verb from the pair in parentheses.

**Writing and Speaking Application**
Write a brief dialogue between a student and a teacher. The student uses troublesome verbs incorrectly, and the teacher explains the right way to use each verb. Read your dialogue aloud with a partner. One of you plays the student, and the other plays the teacher. Then, switch roles with your partner.
**87 THE NOMINATIVE CASE**

Use personal pronouns in the nominative case for (1) the subject of a verb and (2) a predicate pronoun.

There are three cases of pronouns—nominative, objective, and possessive. You use nominative case pronouns when the pronoun is the subject of a verb. You also use nominative case pronouns for a predicate pronoun that comes after a linking verb in a sentence. The nominative case pronouns are *I, we, you, he, she, it,* and *they.*

**SUBJECT:** __________ She planted flowers in the garden.
**PREDICATE PRONOUN:** The person planting flowers was *she.*

Be especially careful when a pronoun is part of a compound subject or a compound predicate nominative. Say the pronoun with the verb or invert the sentence to put the pronoun before the verb.

**EXAMPLE:** Terry and _____ were talking. *(she was talking or her was talking?)*
**CORRECT:** Terry and *she* were talking.

**EXAMPLE:** The high scorers were Dan and _____ *(we were scorers or us were scorers?)*
**CORRECT:** The high scorers were Dan and *we.*

**Dan and we** were the high scorers.

**Practice B Using Nominative Case Pronouns in Sentences**

**Answer:** she.

**1.** My father and (me, I) went fishing.
**2.** Inside the boat were my father and (me, I).
**3.** Cecily and (her, she) are good friends.

**8.** The waitresses were Deb and (her, she).
**9.** Kelli’s sister and (they, them) cooked.
**10.** Claudia and (we, us) studied the menu.

---

**Writing and Speaking Application**

Write three sentences about tryouts for a team or a play. Use nominative case pronouns in your sentences. Then, read your sentences aloud to a partner. Have your partner listen for and correct any pronoun errors. Then, switch roles with your partner.
THE OBJECTIVE CASE

Use personal pronouns in the objective case for (1) a direct object, (2) an indirect object, and (3) the object of a preposition.

The objective case pronouns are me, us, you, him, her, it, and them.

DIRECT OBJECT (DO): Tom’s father drove them to the game.
INDIRECT OBJECT (IO): He offered her a ride, too.
OBJECT OF PREPOSITION (OP): Dennis sat beside him.

If a pronoun is part of a compound object, think of only the pronoun with the rest of the sentence. Also, be careful if a question begins with a verb. In that case, invert the sentence to put the subject before the verb. This will help you pick the right pronoun.

EXAMPLE: The coach named Kerri and _____ captains. (named I or named me?)
CORRECT: The coach named Kerri and me captains.
EXAMPLE: Did you ask Jerry and _____ about the test? (Think: You did ask him or he?)
CORRECT: Did you ask Jerry and him about the test?

Practice A Identifying Objective Case Pronouns

89 THE POSSESSIVE CASE

Use the possessive case of personal pronouns before nouns to show possession. In addition, certain personal pronouns may also be used by themselves to indicate possession. The possessive case is used to show ownership. The chart shows which possessive pronouns are used before nouns and which ones can stand alone.

<table>
<thead>
<tr>
<th>Possessive pronouns used before nouns</th>
<th>my, our, your, his, her, its, our, their</th>
</tr>
</thead>
<tbody>
<tr>
<td>Possessive pronouns that can stand alone</td>
<td>mine, ours, yours, his, hers, theirs</td>
</tr>
</tbody>
</table>

She cleaned her room.

That notebook was hers.

Possessive nouns, such as boys’ or Davia’s, usually contain an apostrophe and s. Several personal pronouns in the possessive case end in s, but they never contain an apostrophe. The word it’s—with an apostrophe—is a contraction meaning “it is.”

Practice A Identifying Possessive Case Pronouns

Read the sentences. Write the correct pronoun from the choices in parentheses.

Example: The apartment was (ours, our’s).
Answer: ours

1. The new store was (her’s, hers).________________________

90  SINGULAR AND PLURAL SUBJECTS

The subject and verb in a sentence must agree in number. A subject can be singular in number or plural in number. Singular means “one,” and plural means “more than one.” Most nouns form their plurals by adding -s or -es, so they are easy to recognize. Some other nouns change their spelling for the plural. Pronouns used as subjects in sentences can also be singular or plural.

<table>
<thead>
<tr>
<th>Singular nouns</th>
<th>book, cent, child, mouse, watch, woman</th>
</tr>
</thead>
<tbody>
<tr>
<td>Plural nouns</td>
<td>books, cents, children, mice, watches, women</td>
</tr>
<tr>

<td>I, he, she, her, it, each, anyone, everyone, someone, this, that</td>
</tr>
<tr>
<td>Plural pronoun subjects</td>
<td>we, you, they, all, these, those, both</td>
</tr>
<tr>

<td>you, some, who, any, none</td>
</tr>
</tbody>
</table>

Imagine that you are looking inside a cabinet in your kitchen at home. Write four sentences about different things you might see. Use both singular and plural subjects in your sentences. Read your sentences aloud to a partner. Have your partner identify each subject and its number.
SINGULAR AND PLURAL VERBS

The subject and verb in a sentence must agree in number.

Just like subjects, verbs used in sentences can be singular in number or plural in number. Present tense verbs sometimes cause writers problems. A present tense verb used with a singular noun subject should have an -s at the end. Also, a present tense verb used with a third-person singular pronoun subject (such as he, she, it, each, someone) should have an -s at the end.

Some forms of the verb be can also be singular (is, was, has been) or plural (are, were, have been). You must use a singular form with a singular subject and a plural form with a plural subject.

| Singular noun subjects                  | The child sees. The bell rings. The woman sews. |

Writing and Speaking Application

Write three sentences about things you might see at a lake. Use singular and plural present tense verbs. Read your sentences aloud to a partner. Have your partner identify each verb and its number. Then, switch roles with your partner.
MAKING VERBS AGREE WITH SINGULAR AND PLURAL SUBJECTS

The subject and verb in a sentence must agree in number. A prepositional phrase that comes between a subject and its verb does not affect subject-verb agreement.

Match singular subjects with singular verbs and plural subjects with plural verbs. Remember that a present tense singular verb often ends in -s. Also, remember that the singular forms of the verb be include am, is, was, and has been, and the plural forms include are, were, and have been.

SINGULAR: This bulb is burned out. The jar is cracked.
PLURAL: These bulbs are burned out. The jars were cracked.

If a subject is separated from its verb by a prepositional phrase, ignore the prepositional phrase. Make sure the verb agrees in number with the subject. The object of the preposition is never the subject.

SINGULAR: The lane between the buildings needs repairs.
PLURAL: The stains on my shirt are hard to remove.

Practice A Making Subjects and Verbs Agree
Read the sentences. Circle the verb in parentheses that agrees with the subject. Then, label the subject singular or plural.

Example: The men on the team (practice, practices) hard.
Answer: The men on the team (practice, practices) hard. plural

1. The injured man (need, needs) stitches. 
2. My cousin never (write, writes) me.
3. The boxes in the attic (belong, belongs) to my mother.
4. A can of tennis balls (is, are) on the top shelf.

Practice B Revising for Subject-Verb Agreement
Read the sentences. Then, if a sentence has an error in subject-verb agreement, rewrite the sentence correctly. If a sentence has no error, write correct.

Example: A car crash into the fence.
Answer: A car crashes into the fence.

1. The flowers in the field is spreading quickly.
2. Each woman on the committee offer suggestions.
3. The players on our team are wearing green uniforms.
4. The Olympic athletes needs more practice at the gym.

Writing and Speaking Application
Write a paragraph about a party. Use singular and plural subjects and present tense verbs. Partners should read aloud their paragraphs and discuss whether the subjects and verbs agree.
93 MAKING VERBS AGREE WITH COLLECTIVE NOUNS

Use a singular verb with a collective noun acting as a single unit. Use a plural verb when the individual members of the group are acting individually.

Collective nouns name groups of people or things. A collective noun that acts as one group together is singular and takes a singular verb. A collective noun in which the group members act as individuals is plural and takes a plural verb.

SINGULAR: The committee holds monthly meetings. The band was invited to be in the parade.
PLURAL: The committee hold different opinions on the issue. The band are wearing their new uniforms.

Practice A Identifying the Number of Collective Nouns
Read the sentences. Then, label each underlined collective noun as singular or plural.

Example: The herd are all grazing on the hillside.
Answer: plural

1. The army was made up of several platoons.
2. The club are going door-to-door to collect funds.
3. The staff are working together on the new rules.
4. Our class are mostly in agreement on the proposal.
5. The jury has reached a verdict.

Practice B Making Verbs Agree With Collective Nouns
Read the sentences. Then, circle the verb in parentheses that agrees with the subject.

Example: After class, the band (put, puts) their instruments away.
Answer: After class, the band (puts) their instruments away.

1. The grand jury (serves, serve) an important role.
2. The council (is holding, are holding) its meeting on Wednesday evening.

Writing and Speaking Application
Write a paragraph about a school team or club. Try to use collective nouns as both singular and plural subjects. Read your paragraph aloud to a partner. Have your partner correct any mistakes in subject-verb agreement. Then, switch roles with your partner.
94 MAKING VERBS AGREE WITH COMPOUND SUBJECTS

A compound subject consists of two or more subjects with the same verb. The subjects are usually connected by a conjunction such as and, or, or nor. Use the rules and examples below to help you know when to use a singular verb with a compound subject and when to use a plural verb. When a compound subject is connected by and, the verb that follows is usually plural.

PLURAL VERB: Will and Vanessa are on the cover of the magazine.

When two singular subjects are joined by or or nor, use a singular verb. When two plural subjects are joined by or or nor, use a plural verb.

SINGULAR VERB: Neither the picture nor the frame was expensive.
PLURAL VERB: Boys or girls receive the same instructions.

When a compound subject is made up of one singular and one plural subject joined by or or nor, the verb agrees with the subject closer to it.

SINGULAR VERB: Either the tires or the axle needs to be replaced.
PLURAL VERB: Neither Lateesha nor her friends are coming to the game.

Practice A Making Verbs Agree With Compound Subjects

Read the sentences. Then, circle the verb in parentheses that agrees with the subject.

Example: Zeke or his brothers (is, are) riding in our car.
Answer: Zeke or his brothers (is, are) riding in our car.

1. My music player and headphones (is, are) missing.
2. Either two oranges or one grapefruit (is needed, are needed) for this recipe.
3. Neither Kareem nor Dwayne (remember, remembers) that book.
4. A fire and earthquake (has caused, have caused) great damage.
5. Either the boys or their father (is sleeping, are sleeping) in the basement.

Practice B Revising for Agreement Between Verbs and Compound Subjects

Read the sentences. If a sentence has an error in subject-verb agreement, rewrite the sentence correctly. If a sentence has no error, write correct.

Example: Kyle and Len has stopped arguing.
Answer: Kyle and Len have stopped arguing.

1. Neither my brother nor my three sisters was able to change Mom’s mind.

2. Either bad batteries or a loose wire have caused the problem.

3. Shoes and a new belt are in the shopping bag.

5. Eli or George have been asked to represent the class.

Writing and Speaking Application

Write three sentences using the names of famous people in history as compound subjects joined by and or or. Partners should read aloud their sentences and correct any mistakes in subject-verb agreement.
95 AGREEMENT IN INVERTED SENTENCES

When a subject comes after the verb, the subject and verb still must agree with each other in number.

Sometimes the verb or part of the verb comes before the subject in a sentence. This often happens with questions that begin with a helping verb, such as has, have, do, or does. Also, the subject often follows the verb in sentences that begin with a prepositional phrase or with the words here, there, or where. These sentences are called inverted sentences.

Notice how the subject comes after the verb or part of the verb in the inverted sentences below. To determine if the subject and verb agree, rearrange the sentence in normal order in your mind.

<table>
<thead>
<tr>
<th>Inverted Order</th>
<th>Rearranged in Normal Order</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inside the can were seven tomatoes.</td>
<td>Seven tomatoes were inside the can.</td>
</tr>
<tr>
<td>Does Dina have a baby sister?</td>
<td>Dina does have a baby sister.</td>
</tr>
<tr>
<td>There is the book of instructions.</td>
<td>The book of instructions is there.</td>
</tr>
<tr>
<td>Where is she living now?</td>
<td>She is living where now.</td>
</tr>
</tbody>
</table>

Write three sentences or questions about a recent movie. Use inverted order. Read your sentences aloud to a partner. Have your partner correct any mistakes in subject-verb agreement. Then, switch roles with your partner.
96 VERB AGREEMENT WITH INDEFINITE PRONOUNS

When an indefinite pronoun is the subject of a sentence, the verb must agree in number with the pronoun. The number of the indefinite pronoun is the same as the number of its referent, or the noun to which it refers.

The chart below shows the three different types of indefinite pronouns.

<table>
<thead>
<tr>
<th>Always Singular</th>
<th>Always Plural</th>

Don’t be confused if an indefinite pronoun is followed by a prepositional phrase. Just mentally cross out the phrase to help you focus on the subject. Then, you can decide whether a singular verb or a plural verb is needed in the sentence.

EXAMPLES: Each of the students needs a textbook.
Some of the teachers are taking advanced courses.

Practice A Making Verbs Agree With Indefinite Pronoun Subjects
Read the sentences. Then, circle the verb in parentheses that agrees with the subject.

2. All of the apples (is, are) rotten.
3. All of the cake (has been eaten, have been eaten).
4. Someone (has taken, have taken) my stamp collection.

Practice B Revising for Agreement Between Verbs and Indefinite Pronouns

Answer: Much of the tooth is decayed.

1. Each of the houses were flooded.
2. Few of the soldiers have received new orders.
3. One of the students have not been given an identification number.

MAKING PERSONAL PRONOUNS AND ANTECEDENTS AGREE

A personal pronoun must agree with its antecedent in person, number, and gender.

Person tells whether a pronoun refers to the person speaking (first person—I or we), the person spoken to (second person—you), or the person, place, or thing spoken about (third person—he, she, it, they).

Number tells whether the pronoun is singular or plural.

Gender tells whether a third-person-singular antecedent is masculine, feminine, or not known.

EXAMPLES: The salesperson assisted her customer. (third person, singular, feminine) The Tigers lost their third game in a row. (third person, plural, gender not known)

Practice A Making Personal Pronouns Agree With Their Antecedents

Answer: We decorated our apartment.

1. Kenon and Aaron opened _______ own bank accounts.
2. Anthony sat with _______ family.
3. Either Jenna or Sally will lend me _______ phone.
4. We deposited _______ checks in the bank.
5. Both Connie and Alicia packed _______ sneakers.

1. Either Howard or Cal has passed their exam.
2. Both men said he will join the committee.
3. Each of the kittens was licking their paws.

98 AVOIDING PROBLEMS WITH NUMBER AND GENDER

A personal pronoun must agree with its antecedent in person, number, and gender. Sometimes it is not easy to determine the number or gender of the antecedent.

| Use a singular personal pronoun when . . . | two or more singular antecedents are joined by or or nor. | Either Carmen or Serena will give her speech now. |
| Use a plural personal pronoun when . . . | two or more antecedents are joined by and. | Carmen and Serena will deliver their speeches. |
| Use a singular pronoun to refer to a collective noun when . . . | that names a group that is acting as a single unit. | The council has chosen its new chairperson. |
| Use a plural pronoun to refer to a collective noun when . . . | the members or parts of a group are acting individually. | The council are supporting two different candidates. |
| To refer to both males and females at the same time . . . | use the phrase his or her or him or her. | Every student has completed his or her project. |
| To avoid the problem of matching gender . . . | rewrite the sentence to use a plural antecedent and plural pronoun. | All students must have their projects finished by tomorrow. |

Practice A Making Pronouns and Antecedents Agree

9. The army unit slept on (its, their) bunks.
10. Both our cat and dog enjoy (its, their) toys.

Practice B Supplying Pronouns That Agree With Their Antecedents

1. Either Ken or Andre will take ________ turn next.

Writing and Speaking Application

Write three sentences using names of television characters as compound subjects joined by and or or. Use personal pronouns in each of your sentences. Read your sentences aloud to a partner. Have your partner correct any mistakes in pronoun-antecedent agreement.
MAKING PERSONAL PRONOUNS AND INDEFINITE PRONOUNS AGREE

Use a singular personal pronoun when its antecedent is a singular indefinite pronoun.

Many indefinite pronouns are singular in number. Some examples are everyone, someone, each, every, and either. When one of these pronouns serves as an antecedent in a sentence, you must use a singular personal pronoun (his, her, its) to refer to it. You can use the pronoun phrase his or her if you want to refer to both males and females. When a plural indefinite pronoun (all, many, both, several) is an antecedent, use a plural personal pronoun, such as their or our.

Remember to ignore a prepositional phrase that comes between the antecedent and the pronoun. The pronoun must match the number of the antecedent and not the number of the object of the preposition.

EXAMPLES: Every athlete wore his or her uniform to the pep rally.

Each of the men put his coat in the closet.

Practice A Supplying Pronouns That Agree With Indefinite Pronoun Antecedents

Read the sentences. Then, fill in the blank with a pronoun that agrees with its antecedent.

2. Has someone lost ___________ glasses?

3. Each lawyer sent bills to ___________ clients.

4. Both of my friends hid packages in ___________ lockers.

100 THREE FORMS OF COMPARISON

Most adjectives and adverbs have three forms, or degrees, of comparison: positive, comparative, and superlative.
Adjectives and adverbs are called modifiers because they change or add meaning to nouns, verbs, or other parts of speech. Modifiers can also be used to compare two or more items.

<table>
<thead>
<tr>
<th>Positive degree</th>
<th>Main form; used when no comparison is being made</th>
<th>Adj: huge, unusual, calm, sly</th>
<th>Adv: slowly, enthusiastically, well</th>
</tr>
</thead>
<tbody>
<tr>
<td>Comparative degree</td>
<td>Used to compare two items or actions; often ends in -er or includes the word more</td>
<td>Adj: huger, more unusual, calmer, slyer</td>
<td>Adv: more slowly, more enthusiastically, better</td>
</tr>
<tr>
<td>Superlative degree</td>
<td>Used to compare more than two items or actions; often ends in -est or includes the word most; often follows the word the</td>
<td>Adj: hugest, most unusual, calmest, slyest</td>
<td>Adv: most slowly, most enthusiastically, best</td>
</tr>
</tbody>
</table>

1. This is the finest diner in the county. ___________________________
2. The winds blew harder than before. ___________________________

Write three sentences comparing different types of soaps or shampoos. Use comparative and superlative modifiers in your sentences. Read your sentences aloud to a partner. Your partner should identify each modifier and tell its form.
101 REGULAR MODIFIERS WITH ONE OR TWO SYLLABLES

Use -er or more to form the comparative degree and use -est or most to form the superlative degree of most one- and two-syllable modifiers.

Most adjectives and adverbs that contain one or two syllables are regular. With some modifiers—such as adjectives that end with -ful or -less or adverbs that end with -ly—adding -er or -est would sound funny. So the word more is used for the comparative degree, and the word most for the superlative degree.

<table>
<thead>
<tr>
<th>Degree</th>
<th>Add -er or -est</th>
<th>Use more or most</th>
</tr>
</thead>
<tbody>
<tr>
<td>Comparative adjectives</td>
<td>brighter, fairer, handier, nastier, nicer, wiser</td>
<td>more careless, more impressive, more unusual</td>
</tr>
<tr>
<td>Superlative adjectives</td>
<td>brightest, fairest, handiest, nastiest, nicest, wisest</td>
<td>most careless, most impressive, most unusual</td>
</tr>
<tr>
<td>Comparative adverbs</td>
<td>faster, harder, earlier</td>
<td>more gently, more eagerly, more quickly, more wisely</td>
</tr>
<tr>
<td>Superlative adverbs</td>
<td>fastest, hardest, earliest</td>
<td>most gently, most eagerly, most quickly, most wisely</td>
</tr>
</tbody>
</table>

1. harmful
2. sturdy
3. happy
4. intense
5. anxious
6. lumpy
7. wildly
8. cleverly
9. solid

Use more and most to form the comparative and superlative degrees of all modifiers of three or more syllables. Do not use -er or -est with modifiers of more than two syllables.

<table>
<thead>
<tr>
<th>Positive</th>

</tr>
</thead>
<tbody>
<tr>
<td>brilliant</td>
<td>more brilliant</td>
<td>most brilliant</td>

<td>cowardly</td>
<td>more cowardly</td>
<td>most cowardly</td>
</tr>
<tr>
<td>efficiently</td>

Many adverbs end in -ly. The comparative form of these adverbs includes the word more. The superlative form includes the word most.

<table>
<thead>

Writing and Speaking Application

Write three sentences about a team that is losing an important game. Use decreasing comparative and superlative modifiers in your sentences. Read your sentences aloud to a partner. Your partner should identify each modifier and tell its form. Then, switch roles with your partner.
105 IRREGULAR ADJECTIVES AND ADVERBS

Memorize the comparative and superlative forms of adjectives and adverbs that are irregular.

With some adjectives and adverbs, the comparative and superlative degrees are formed in unusual ways. There are no rules to help you. You will have to memorize the correct forms.

Practice A Identifying Comparative and Superlative Degrees of Irregular Modifiers

Complete the chart by filling in the missing forms of the irregular adjectives and adverbs.

<table>
<thead>
<tr>
<th>Positive</th>
<th>Comparative</th>
<th>Superlative</th>
</tr>
</thead>
<tbody>
<tr>
<td>bad (adjective)</td>
<td>worse</td>
<td></td>
</tr>
<tr>
<td>badly (adverb)</td>
<td>worse</td>
<td></td>
</tr>
<tr>
<td>far (distance)</td>
<td>farther</td>
<td></td>
</tr>
<tr>
<td>far (extent)</td>
<td>further</td>
<td></td>
</tr>
<tr>
<td>good (adjective)</td>
<td></td>
<td>best</td>
</tr>
<tr>
<td>well (adverb)</td>
<td></td>
<td>best</td>
</tr>
<tr>
<td>many</td>
<td></td>
<td>most</td>
</tr>
<tr>
<td>much</td>
<td>more</td>
<td></td>
</tr>
</tbody>
</table>

Practice B Using Forms of Irregular Modifiers

10. Dave had the __________ time of any runner in the race. (bad, superlative)

Writing and Speaking Application

With a partner, write and perform a dialogue in which one of you asks questions using forms of the irregular modifiers in this lesson, and the other answers the questions. For example: What is the best place to buy shoes in town? What is the farthest you have ever run?
106 USING COMPARATIVE AND SUPERLATIVE DEGREES

Use the comparative degree to compare two people, places, or things. Use the superlative degree to compare three or more people, places, or things.

Look carefully at the other words in the sentence to help you decide whether to use the comparative form (comparing two items) or superlative form (comparing more than two).

Avoid using double comparisons, such as more better, more friendlier, most happiest, or worser.

Practice A Determining the Correct Form of Modifier

Read each sentence. Then, fill in the correct form of the modifier shown in parentheses.

Example: Mr. Gomez is _______ than his brother. (old)
Answer: older

1. Blake can jump _______________________ than any other basketball player. (high)

Answer: He is the stingiest man in town.

1. Try to come up with a more better idea.
   _______________________________________________________________________

2. They are the least happy students in our class.

Writing and Speaking Application

Write a short commercial in which you compare one type or brand of juice with others. Use comparative and superlative modifiers in your commercial. Read your commercial to a partner. Your partner should listen for and correct any errors in your use of modifiers. Then, switch roles with your partner.
107 MAKING LOGICAL COMPARISONS

When you make a comparison, be sure you are comparing things that have clear similarities.
Also, make sure that your sentences compare only similar items.
When comparing one of a group to the rest of the group, make sure your sentence contains
the word other or else.

Correct a comparison that is unbalanced and confusing.

UNBALANCED: My plant is healthier than Tina. (What are you comparing?)
BALANCED: My plant is healthier than Tina’s.

UNBALANCED: Painting windows is harder than a wall. (What are you comparing?)
BALANCED: Painting windows is harder than painting a wall.

CONFUSING: Hugo tries harder than anyone on the team. (Isn’t Hugo on the team?)
CLEAR: Hugo tries harder than anyone else on the team.

Practice A Recognizing Logical Comparisons
Read each sentence. Then, write whether the comparison is unbalanced or balanced.

2. Cara’s smile is warmer than Laurie.
3. Stan’s house is roomier than ours.
4. Jan’s coat was a darker gray than mine.
5. Dean’s glasses are thicker than Arlen.

Practice B Revising to Make Comparisons Logical
Read the sentences. If a sentence contains an illogical comparison, rewrite the sentence correctly.
If a sentence has no error, write correct.

Example: Stan’s gold watch cost more than any watch he has.
Answer: Stan’s gold watch cost more than any other watch he has.

1. I like apples more than any fruit.
2. The air in Los Angeles is more polluted than Cleveland.
3. Gillian scored higher than anyone in the class.

Writing and Speaking Application
Write three sentences that follow this pattern: _______ is _______ than _______. Read your
sentences to a partner, who will correct any illogical comparisons. Then, switch roles.
108 TROUBLESOME ADJECTIVES AND ADVERBS

Use the adjective bad with a linking verb, such as feel, look, or smell. Use the adverb badly with an action verb, such as perform or sing.

Use good with nouns or after linking verbs. Use well with action verbs or to describe health. Use fewer to answer the question How many? Use less to answer the question How much?

INCORRECT: She sang bad in the show.  Sara feels badly about what happened.
CORRECT: She sang badly in the show.  Sara feels bad about what happened.

INCORRECT: Less people attended the game.  The dancers performed good.
CORRECT: Fewer people attended the game.  The dancers performed well.

Be careful where you place the word just or only in a sentence. If you mean “no more than,” then just or only should go right before the word it modifies. Otherwise, the sentence may be confusing.

CONFUSING: I only brought one sweater.  The team just lost by one run.
CLEAR: I brought only one sweater.  The team lost by just one run.

Practice A Using Bad and Badly, Good and Well, Fewer and Less

Read each sentence. Then, circle the word in parentheses that correctly completes the sentence.

109 USING PERIODS

A period indicates the end of a sentence or an abbreviation.

Use a period to end a declarative sentence—a sentence of fact or opinion. Use a period to end most imperative sentences—sentences that give directions or commands. Use a period to end a sentence that contains an indirect question. Use a period after most abbreviations and initials. Do not use periods with acronyms, words formed with the first or the first few letters of a series of words.

Declarative Sentence: Thanksgiving is a busy time at the airport.
Imperative Sentence: Be there on time.
Indirect Question: The pilot asked me if I wanted to see the cockpit.

USING COMMAS IN COMPOUND SENTENCES

A compound sentence consists of two or more main, or independent, clauses that can be joined by a coordinating conjunction, such as and, but, for, nor, or, so, or yet. Use a comma before the conjunction that joins main, or independent, clauses in a compound sentence. If the conjunction joins single words, phrases, or subordinate clauses, do not use a comma.

Compound Sentence: She will not join the chorus, nor will she take voice lessons.
Single Words: Violins and violas are similar instruments.
Phrases: Should we practice in the garage or in the basement?

Practice A Adding Commas in Compound Sentences

113 AVOIDING COMMA SPLICES

Avoid comma splices. A comma splice occurs when two or more sentences have been joined with only a comma.

INCORRECT: Rebecca sings in her church choir, Mariah sings in the glee club.
CORRECT: Rebecca sings in her church choir. Mariah sings in the glee club.

Practice A Identifying Comma Splices
Read each item. If the item is correct, write C on the line. If it has a comma splice, circle the error.

USING COMMAS IN A SERIES

Use commas to separate three or more words, phrases, or clauses in a series.

A comma follows each of the items except the last one in a series. The conjunction and or or is added after the last comma. There are two exceptions to this rule. If each item except the last is followed by a conjunction, do not use commas. Also, do not use a comma to separate groups of words that are considered to be one item.

Series of Words:
- China, Japan, and India are countries in Asia.

Series of Phrases:
- I looked for my key on the hook, in the drawer, and under the table.

Exceptions:
- My parents will take us to Florida or Alabama or Georgia.
- For dessert we could have strawberries and cream, an orange, or apples and dip.

7. Laura, Molly, and Katie are collaborating on a project about China.
8. Katie brought pictures and maps and postcards from China.

Practice B Adding Commas

If a sentence is correct, write C on the line. If the sentence has an error in commas, underline the word that should be followed by a comma and add the comma.

Writing and Speaking Application

Write about a celebration, using a series with commas. Take turns with a partner reading your sentences aloud. Your partner should tell where commas belong. Then, switch roles with your partner.
USING COMMAS BETWEEN ADJECTIVES

Use commas to separate adjectives of equal rank. Do not use commas to separate adjectives that must appear in a specific order. Do not use a comma to separate the last adjective in a series from the noun it modifies.

There are two ways to tell whether the adjectives in a sentence are of equal rank. Consider this sentence: She is a kind, generous friend.

Try using the word and in the sentence: She is a kind and generous friend.

Try changing the word order: She is a generous, kind friend.

Practice A Identifying Correct Comma Use
Read each sentence. Identify the comma error. Write Add or Omit on the line to show how to correct the sentence. Then, circle the word before the error.

When a sentence begins with an introductory word, phrase, or other structure, that word, phrase, or other structure is usually separated from the rest of the sentence by a comma.

| Introductory word          | Samantha, where is your jacket?  
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Unfortunately, we cannot afford to go this year.</td>

|                            | Across from the library, there is a post office. |
| Introductory adverbial clause | As long as the good weather lasts, we can go hiking every Saturday. |
USING COMMAS WITH PARENTHETICAL EXPRESSIONS

A parenthetical expression is a word or phrase that is not essential to the meaning of the sentence. These words or phrases generally add extra information to the basic sentence. Use commas to set off parenthetical expressions from the rest of the sentence.

<table>
<thead>
<tr>
<th>Names of people being addressed</th>
<th>This seat, Brad, is for you. Please return the library book, Lindsey.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Certain adverbs</td>
<td>The dog, also, needs to be walked soon.</td>
</tr>
<tr>
<td>Common expressions</td>
<td>You may, perhaps, disagree with me.</td>
</tr>
<tr>
<td>Contrasting expressions</td>
<td>The restaurant is on Second Street, not Third.</td>
</tr>
</tbody>
</table>

Practice A Recognizing Parenthetical Expressions

Read each sentence. Then, underline the parenthetical element and add one comma if it is at the end of a sentence or two commas if it is in the middle.

Writing and Speaking Application

Write two sentences about an opinion you hold. Use at least one parenthetical expression and underline it. Then, with a partner, take turns reading and listening to each other’s sentences. Discuss the parenthetical expressions and how commas are used.
USING COMMAS WITH NONESSENTIAL EXPRESSIONS

Nonessential expressions can be left out without changing the meaning of the sentence. Set them off with commas.

<table>
<thead>
<tr>
<th>Essential Nonessential</th>
<th>Appositives and Appositive Phrases</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>The book <em>The Yearling</em> was made into a movie.</td>
</tr>
<tr>
<td></td>
<td><em>The Yearling</em>, a classic book, was made into a movie.</td>

<td></td>
<td>The man teaching Ms. Ray’s class is a substitute.</td>
</tr>
<tr>
<td></td>
<td>Mr. Cohn, a substitute teacher, took Ms. Ray’s class.</td>

<th>Adjectival Clauses</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>We wanted someone who could pitch for our team.</td>
</tr>
<tr>
<td></td>
<td>Jenna, who is a good pitcher, joined the team.</td>
</tr>
</tbody>
</table>

Practice A  Labeling Essential and Nonessential Sentences

Read each sentence. Then, write Essential if the underlined phrase or clause is needed for the meaning. Write Nonessential if the phrase or clause can be left out.

124 USING SEMICOLONS TO AVOID CONFUSION

Consider the use of semicolons to avoid confusion when items in a series already contain commas.

Place a semicolon after all but the last complete item in a series.

Use a hyphen after a prefix that is followed by a proper noun or adjective.

EXAMPLES: pro-Russian treaty mid-June

Use a hyphen in words with the prefixes all-, ex-, and self- and the suffix -elect.

USING HYPHENS WITH COMPOUND MODIFIERS

Hyphens help your reader group information properly. A hyphen is not necessary when a compound modifier follows the noun it describes. However, if a dictionary spells a word with a hyphen, the word must always be hyphenated, even when it follows a noun. Use a hyphen to connect a compound modifier that comes before a noun. Do not use a hyphen with a compound modifier that includes a word ending in -ly or in a compound proper adjective.

EXAMPLES: We try to eat well-balanced meals. a single-handed effort a carefully prepared dinner the Puerto Rican cooking

137 USING HYPHENS AT THE ENDS OF LINES

Hyphens serve a useful purpose when they divide words at the ends of lines. However, avoid dividing words at the end of a line whenever possible. If a word must be divided, always divide it between syllables. A hyphen used to divide a word should never be placed at the beginning of the second line. It must be placed at the end of the first line.

EXAMPLE: Eve fell off her bike and fractured her arm.

138 USING HYPHENS CORRECTLY TO DIVIDE WORDS

<table>
<thead>
<tr>
<th>Incorrect</th>
<th>harsh</th>
<th>ceased</th>
<th>even</th>
<th>Russia</th>
<th>self-defense</th>

<tr>

141 USING APOSTROPHES WITH CONTRACTIONS

Contractions are used in informal speech and writing, especially in dialogue, because they create the sound of speech.

Use an apostrophe in a contraction to show where one or more letters have been omitted.

<table>
<thead>
<tr>
<th>Verb or pronoun + not</th>

One day the crew was alerted to the FBI’s supposition that an international embezzler was on board. access ancestor antecedent concede contradict
dictator predecessor edict indicate intercede

The government of the United States has Greek, Roman, and English antecedents. The English are our closest governmental ancestors, and Greeks are our most obvious ancient influence. Historians also always indicate the influence of Rome. In Rome, the power of the government rested—for a time—with the citizens. Of course, historians concede that not everyone had access to citizenship (this was limited to males of certain classes). Still, this does not contradict the fact that early forms of democratic bodies, such as the Roman senate and assembly, influenced our government. Of course, Rome also had the first dictator. However, Roman dictators were appointed, had power for only six months, and interceded only during times of crisis. A dictator could issue edicts and exercise more power than his predecessor, but this temporary power was thought to be important for the good of the state.

A. Determine whether or not each word is spelled correctly. Spell incorrect words correctly in the first column. Then write each word that makes the compound in a separate column.

Examples: The words ankle and quarrel end with the same vowel sound, but it is not spelled the same way in the two words.

A. Sort the words below according to the spelling of the final vowel sound.

**Syllable Patterns with Examples:**

- 1 consonant between two vowels; first vowel is short (short VCV)—modern

A. Determine whether or not each word is spelled correctly. Spell incorrect words correctly. Write the pattern shown in parentheses above that applies to each word. Check your spelling in a dictionary.

5. Did the speaker appear confident and support his or her verbal delivery with appropriate nonverbal language? Support your answer.
Self-Assessment of a Speech

Evaluating Your Speaking Skills When you speak before a group, your goal is to present information to your listeners in an interesting and effective way. When you give a speech, you usually want your words to persuade your listeners to believe or do something. Use this sheet to evaluate your attitudes, speaking skills, and performance.

Interpreting Maps and Graphs

Reading Maps  Maps are not only used to study history and geography. They can also help you plan a trip, understand current events, or find out about the weather. The following three steps will help you interpret maps:

1. Identify the topic of the map. The title will tell you the subject of the map. The key explains the meanings of the map’s symbols and colors.
2. Look at a map’s scale to determine distances between places. The scale shows you how many inches on the map equal how many actual miles or kilometers.
3. Study the directional arrow to identify north, south, east, and west on a map.

Reading Graphs  Graphs present statistics, or number facts, in a visual way. A line graph can show you at a glance how statistics change over time—from the population of the world to your batting average. The following four steps will help you interpret line graphs:

1. Use the title to identify the subject of the graph. The source line will tell you where the information was found.
2. Study the labels on the graph. The horizontal (side-to-side) axis usually tells you the time period covered by the graph. The vertical (up-and-down) axis tells you what is being measured.
3. To read the information on the graph, line up the points on the graph with the horizontal and vertical axes to determine how much of something there was at a given time.
4. Draw conclusions about the information presented on the graph.

Exercise 1  Reading a Road Map.  Answer the following questions about this map.

Southeastern United States Road Map
1. What is the title of the map? 

2. Choose a state shown on the map that you would like to visit. List its name and capital, and tell what states are next to it. 

3. If the Joneses travel south from Washington, D.C., which city would they reach first? 

4. If the Joneses want to drive directly from Washington, D.C., the nation’s capital, to Charlotte, which interstate highways will they take? 

5. To help the Joneses, calculate how many miles they would need to drive to travel from Charlotte to Atlanta. Which interstate highway would they take? 

6. How will the Joneses route be different if they travel from Washington directly to Savannah and St. Augustine? 

---

**Exercise 2** Reading a Line Graph. Answer the following questions about this line graph.

*This graph shows the effects of limiting the release of ozone-damaging chemicals into the air.*

---

1. What is the title of the line graph? 

2. What time period is covered by the graph? 

3. The ozone layer acts like a shield that protects organisms on Earth from some of the dangerous radiation given off by the sun. What was the approximate amount of ozone-damaging chemicals in 1995? 

4. Two meetings proposed controls on the amount of ozone-damaging chemicals that could be released into the atmosphere. What would happen to the amounts of ozone-damaging chemicals released into the air in 2015 according to the London Agreement? 

5. What would happen to the amounts of ozone-damaging chemicals released into the air in 2015 according to the Montreal Agreement? 

6. Which agreement offers better protection for the ozone layer?
Viewing Information Media Critically

When you view information media critically, you take the time to analyze the messages you see and hear. Messages from these media can entertain you and help you make decisions. Since they can also influence you in subtle ways, it is important to approach media messages with a critical eye. In order to evaluate what you see, apply the following strategies when viewing a message:

1. **Identify the source.** Try to find out who is responsible for the message. This information will help you figure out the point of view being expressed, and it may also reveal a message’s intent. Recognize that media often present an issue through a bias—a personal opinion or strong feeling for or against a subject.

2. **Separate fact from opinion.** A fact is a statement that can be proved true by consulting a reliable source. An opinion is a belief that is based on a writer’s attitude or values.

3. **Ask questions.** Ask yourself, “What is the purpose for writing the message?”

**Exercise 1:** Viewing Media. Watch or listen to a form of nonprint information media, such as a documentary, a television news program or magazine, an interview, an editorial, or a commercial. Then, answer the questions that follow:

1. What is the source of the media message? How might that source’s motivation affect the content of the message?

2. What is the topic of the message?

3. How would you categorize the interest of this topic—social, political, or cultural?

4. What is the length of the message?

5. Is the coverage in-depth or brief and summarized? Explain.

7. What seems to be the point of the message?

8. Is there any information you would add to the message? If so, what?

9. Does the presentation of the message convey its points effectively? How?

10. Overall, what would you do to improve the content of the media coverage presented?
Interpreting Fine Art

The elements of visual art—content, medium, color, and structure—contribute to the emotional meaning and impact of a work of art. This is true for graphic art, such as posters, and for fine art, such as paintings and drawings. When you look at art, consider how each element affects your response.

Exercise 1  Examining Fine Art. Choose a piece of fine art that interests you. Use the following questions to help you examine and analyze it.

Content
1. What is the subject of the work? Is it realistic? Abstract?
2. What does it suggest about the artist’s purpose?

Medium
3. What materials has the artist used?
4. How do these materials relate to the artist’s purpose?

Color
5. What colors has the artist used?
6. Which moods and emotions do these colors evoke?
7. How do the colors reflect the artist’s feelings about the subject?

Structure
8. What kind of structure does the artist use—lines or contours, geometric shapes, or brushstrokes? Are the lines horizontal, vertical, diagonal, or curved? If the art is made up of shapes, which ones can be seen? If there are brushstrokes, are they long, short, or layered?
9. Where do the lines lead your eyes?
Creating Visual Aids

Graphic organizers can be effective tools for thinking and learning, especially if you are a visual learner. Charts, diagrams, clusters, and concept maps are all resources that you can use to organize information visually. Organizers are useful in both reading and preparing for writing. Visual representations of text can help you increase your comprehension and organize your thoughts.

**Exercise 1**  Creating a Concept Map. Use the concept map provided to organize the following information on sonar or ultrasonic waves.

Sonar is a system of detecting reflected sound waves using ultrasonic waves. Sonar gets its name from the first letters of **sound** navigation and **ranging**. “Navigation” means finding your way around on the ocean or in the air, and “ranging” means finding the distance between objects.

There are at least four ways in which ultrasonic waves are used. In the ocean, dolphins and whales use sonar to determine and locate objects. When whales emit a “ping” sound, for example, they are using sound waves to navigate in the ocean and find their prey.

In the air, bats also use sound waves. As they fly, they send out pulses of sound and then listen to how long the sound takes to return. Bats use sonar in order to navigate and find food, which consists of insects or small animals such as mice, rats, frogs, or birds.

In medicine, doctors use ultrasonic waves to look inside the body to diagnose or treat some medical conditions. For example, doctors can examine a developing baby in its mother’s womb by viewing a picture created with ultrasonic waves.

At home, ultrasonic waves are used to help clean jewelry and electronic components. A sonic toothbrush, for example, uses sound to reach and clean places that toothbrush bristles cannot reach.

- **What is it?**
- **Where is it used?**
- **What are some examples?**
Exercise 2  Creating a Pie Chart.  A pie chart shows percentages of parts that make up a whole. Use the following circle to make a pie chart about the religious population of the world. The circle stands for 100 percent. Divide it approximately to show these percentages.

1. One third of the world’s population is made up of Christians (Roman Catholics, Protestants, Orthodox, Anglicans, and other Christians).
2. Muslims are the second-largest in population; 17.7 percent of the world’s population is Muslim.
3. Jews comprise only 1% of the world’s population.
4. Six percent of the world’s population is Buddhist.
5. The Hindu population is 14 percent; this is equal to the percentage of those who follow other religions.
6. Fourteen percent of the world’s population is nonaffiliated with any religion.

After you’ve divided the circle, put a label and percentage in each section, and title the chart “Estimated Religious Population of the World.”
Using Formatting Features

Using Italics, Capitalization, Bullets, Numbering, and Boldface  When you prepare a manuscript for presentation, you may want to use formatting to emphasize words or phrases. The following are examples of formatting methods:

1. Italics (slanted or underlined text)—used to emphasize words or to set apart terms that will be defined
2. Capitalization—used for headings
3. Bullets (round black dots)—used next to items in a list
4. Numbering—used for items in a list
5. Boldface (darker text)—used for headings or terms being defined

Exercise 1  Using Formatting.  On the line next to each item below, rewrite the item with formatting, showing which method you would use to emphasize it. Then, explain your choice. Change the wording of the item if you need to, but make sure to keep the same meaning.

1. The comedies of Shakespeare (heading) ________________________________

2. There are five commands to know for river rafting: right paddle, left paddle, front paddle, back paddle, and jump. ________________________________

3. Here are my conditions for helping you with the project: you are serious and cooperative, you do your own work, and you arrive for study sessions on time. ________________________________

4. At first, Gillian was very reticent, shy, at parties. ________________________________

5. There are three branches of government: the Executive, the Judicial, and the Legislative. ________________________________
Working with Multimedia

In a multimedia presentation, you present researched information through slide shows, videos, audio recordings, and fine art, as well as through your written materials. Good planning, preparation, and practice will make your multimedia presentation effective and memorable.

**Exercise 1** Use the following guide to plan your multimedia presentation. Then, answer the questions that follow the steps.

**Planning**
1. What is your topic?
2. What sources will you use to gather your information or content?

**Preparing**
3. What types of media—such as recorded interviews, music, video clips, photographs, or articles—or means of communication do you plan to use?
4. What equipment will you need? Where will you get the equipment?

**Presenting**
5. How will you show your presentation?
6. How does your presentation work when you rehearse it? What do you need to practice or revise?

**Exercise 2** Use the outline below to plan your multimedia presentation on paper. Plan the navigation to help users follow your presentation. Include notes to indicate where you will cue each piece of media.

Creating a Video

In order to make a video, a storyboard—a plot in words and pictures—is required to add details to your plan. A storyboard can spark new ideas for plot, character, and setting.

**Exercise 1  Make Your Own Video.** Use the following storyboard template to plan your video. In each box, sketch out a step in the action. Include a label or written description of what happens in that scene.
Developing Your Vocabulary Through Listening

It is important to distinguish between hearing (what happens automatically when sounds reach your ear) and listening (actively paying attention and attempting to understand and retain what you hear).

You listen to teachers, friends, announcements, movies, CDs, instructions, and so on. In order to listen well and learn from it, you can take notes and build your vocabulary by looking up unfamiliar words. You can also figure out the meaning of these words using context clues.

**Exercise 1**

For two days, write down five unfamiliar words you hear in conversations and five words you hear on television or radio programs. Try to remember the context in which you hear the words. After each of the ten words, write the context or sentence in which you heard the word. Then look up the word’s meaning, and write the meaning on the third line.

**EXAMPLE:**

- **hamstring**
  - She pulled her hamstring while hiking.
  - hamstring: one of the tendons at the back of the human knee

Using Context

Using Context in Daily Reading Use context clues to guess the meanings of unfamiliar words.

Steps in Using Context Clues
1. Reread the sentence, leaving out the unfamiliar word.
2. Examine the surrounding words to see if they give any clues.
3. Use the clues to guess the meaning of the word.
4. Read the sentence again, substituting your guess to see if it makes sense.
5. Check your guess by looking up the word in a dictionary.
6. Write the word and the definition in your vocabulary notebook.

Exercise 1 Using Context. Read the passage below. Circle the correct meaning of each underlined word. Then, write the words that led you to your choices on the line that follows.

And now, as I still continued to step cautiously onward, there came (1) thronging upon my recollection a thousand vague rumors of Toledo. Of the dungeons there had been strange things (2) narrated—fables I had always deemed them—but yet strange and too ghastly to repeat. (3) save in a whisper. Was I left to (4) perish of starvation in this (5) subterranean world of darkness; or what fate, perhaps even more fearful, awaited me?—Edgar Allan Poe, “The Pit and the Pendulum.”

EXAMPLE: recollection: (a) assortment; (b) memory; (c) mind; (d) fear

1. thronging: (a) pounding; (b) throbbing; (c) aching; (d) crowding
2. narrated: (a) sold; (b) told; (c) promised; (d) happened
3. save: (a) rescue; (b) keep; (c) except; (d) dangerous
4. perish: (a) die; (b) flourish; (c) hunger; (d) survive
5. subterranean: (a) above ground; (b) underwater; (c) underground; (d) scary

Exercise 2 More Work With Context Clues. Write a definition for each underlined word. Then, check your definitions in a dictionary.

EXAMPLE: Both pines and hemlocks are coniferous trees. cone-bearing

1. Because it is officially a neutral country, Switzerland has never been involved in a war.

2. Napoleon’s army was vanquished at the Battle of Waterloo.

3. Because of the fluid in his lungs, the patient’s respiration was labored.

4. In contrast to chemically active gases, neon is inert.

5. In fall, geese migrate to warmer, southern regions; in spring they return to their native northern homes.
Studying Meanings in the Content Areas

As you read in the content areas, such as science, social studies, and current events, keep a categorized record of unfamiliar words. In science, categorize words by their prefixes, suffixes, or roots, and notice that many science words have Latin roots. In social studies, use categories such as government, political activity, and geography. In current events, use categories such as politics, finance, and education.

Exercise 1 Using Categories in Science. List each of the numbered words in the following paragraphs, and look up their definitions. Then, categorize at least two of the words by whether they fall into earth-science or life-science categories.

Two researchers came upon a (1) cascade in the wood. They heard the sound of (2) cicadas around the base of the trees, so they wondered if they might find birds. They thought they detected (3) dolerite in the rocks along the water. Having studied geological maps, they knew they were near a joining of (4) tectonic plates. Suddenly, beyond some tall ferns, they saw feathers and bobbing beaks and realized they had found a (5) heronry.

Exercise 2 Creating Current Events Categories. List each of the numbered words in the following paragraph and look up their definitions. Then, categorize at least two of the words by finding a similarity, such as politics or law.

Although the presidential press secretary tried a policy of (1) appeasement with the press corps, he found that they were determined to (2) besmirch the Administration. There was a rumor of a (3) misdemeanor charge against the President’s Chief of Staff. Although this (4) malfeasance threatened to embarrass the President, lawyers had managed to get a (5) continuance until after the election.

Studying New Words

Techniques for Studying New Words  There are several ways to study new words. Select at least two review methods to help you learn new vocabulary words.

· You can use your notebook that contains words and definitions. Cover up the definitions. Try to remember them, and then write sentences using them.
· You can use flashcards with the word on one side and its definition and subject on the other.
· With a tape recorder, you can record the word with a long pause between it and its definition. Then test yourself by saying the definition during the pause.

Exercise 1  Using Words in Sentences.  Use a dictionary to define each of the following words. Then, use each word in a sentence.

1. effervescent
   ...

2. indelicate
   ...

3. miscellaneous
   ...

4. abundance
   ...

5. tenacious
   ...

Exercise 2  Using Flashcards or Tape Recorders to Study.  Use a dictionary to define the following words. Then reinforce each word’s meaning using either of these methods:

· Make a set of flashcards by jotting down the following words and their definitions.
· Make a tape recording by recording yourself as you speak each word and its definition.

1. stagnant
   ...

2. lintel
   ...

3. trilogy
   ...

4. granary
   ...

5. escalate
   ...
Using a Dictionary and Other Reference Aids

A Dictionary for Building Vocabulary  Using a dictionary helps build vocabulary skills. Learn about alternate meanings by looking up words and their multiple meanings.

A Thesaurus for Building Vocabulary  A thesaurus is another good tool for building vocabulary and finding a better way to say what you want to say. A thesaurus supplies a synonym, a word that has the same meaning, so you can replace words hastily chosen with more precise or better suited words.

Exercise 1  Using a Dictionary.  Use a dictionary to define five of the twenty-five meanings of the adjective form of the word free. Then, write a sentence using the appropriate meaning.

EXAMPLE:  free  able to move in any direction; not held, as in chains, etc.; not kept from motion; loose

The dog wiggled free of his collar and chased after the cat.

draft, n. 1. [A preliminary sketch]—Syn. plans, blueprint, sketch; see design 1.
2. [A drink]—Syn. Swallow, glass, quaff; see drink 1.
3. [A breeze]—Syn. Current of air, gust; puff; see wind 1.
4. [A contrivance for controlling the flow of air]—Syn. damper, check, control, flap, front draft, check draft, smoke draft; see also valve.
5. [An order for payment]—Syn. cashier's check, bank draft, (money) order, receipt, promissory note, warrant, coupon, bond debenture, letter of credit, IOU (D); see check 1.
6. [The selection of troops]—Syn. conscription, induction, assignment, registration, allotment, recruiting, lottery, levy, selective service, call of duty; see also selection 1.
[On draft]—Syn. ready to be drawn (from the cask), bulk, unbottled; see available, potable, ready.

line, n. 1. [A row]—Syn. length, list, rank, file, catalogue, order, group, arrangement, range; see also seam, series.
2. [A mark]—Syn. outline, tracing, stroke; see mark 1.
3. [A rope]—Syn. cord, filament, steel tape; see rope, wire 1.
4. [Lineal descent]—Syn. descent, pedigree, lineage; see family 1, heredity.
5. [A border line]—Syn. border, mark, limit; see boundary, edge 1.

Exercise 2  Using a Thesaurus.  Write ten sentences using each of the meanings of the words draft and line in the thesaurus entries above.

EXAMPLE:  draft 2.  I'll take a draft of root beer.
Using Roots

Using Roots  The root carries the basic meanings of the word. Notice that each of these roots has more than one spelling. A variant spelling for each root is shown.

<table>
<thead>
<tr>

5. advent     ________________ one who looks into things; investigator
6. capture    ________________ act or state of moving
7. revision   ________________ hold back
8. conversion ________________ that which is said to another to write down
9. inspector  ________________ send away
10. dictation  ________________ the act of result of seizing

Exercise 2 Using Roots to Compose Words. Use each of the roots below (or its variant spelling) to compose a word. Define each word, and use a dictionary to check your definition.

EXAMPLE: -pon- repository a place where things are put for safekeeping

1. -cap-                      
2. -dic-

Using Prefixes and Suffixes

Using Prefixes An easy way to enlarge your vocabulary is to learn the meanings of a few common prefixes. Notice that some prefixes change their spelling when they combine with certain words or roots.

Understanding the Influence of Other Languages and Cultures

**Spelling English Words From Other Languages** Seven out of ten words in English come from other languages. That means that English spelling rules always have many exceptions. For some words, you just can’t apply the spelling rules you know, so you just have to remember how to spell these words. It may help, though, to be able to recognize words as being from other languages. For example, words that end in -tion or -ent usually come from French. Words that end in -o or -i typically come from Italian or Spanish. Words that contain -nym- or -phon- usually come from Greek.

**Exercise 1** Words From Other Languages. Read the words below. Write the language from which you believe each word comes.

1. burro ________________________________
2. spumoni ________________________________
3. synonym ________________________________
4. retraction ________________________________
5. current ________________________________
6. reception ________________________________
7. piazza ________________________________
8. symposium ________________________________

Proofreading and Using References

After you finish writing, the last step in the writing process is to proofread your draft. One important part of proofreading is checking your spelling, for which you should always have handy a reference such as a dictionary.

Exercise 1  Checking Your Spelling.  The following sentences are from a first draft of an essay about The Diary of Anne Frank. Proofread the sentences to correct all spelling errors. Cross out each misspelled word and write the correct spelling above it.

1. In The Diary of Anne Frank, a play set in Amsterdam, Holland, during World War II, we learn what it's like to live in fear all the time.

2. This play tells a sad tale about a young girl and her family, including an older sister, who are trapped during the war and hide out to keep themselves from being killed.

3. While hiding out in the attic, Anne writes down all kinds of ideas in a diary that becomes very important to her. She likes to write.

10. Is there an appendix? ______________ If so, what does the appendix contain? ___________________________

**Exercise 2** Surveying Another Textbook. Use the questions in Exercise 1 to examine a textbook from a different course. Use a separate piece of paper for your answers.
Using Features of Textbooks

Before you begin to read a chapter of a textbook, you should look at the following features: titles, headings, subheadings, captions, illustrations, and the first and last paragraphs.

Headings are usually larger than the rest of the text, and they are printed in bold, dark, or colored type. They usually state the subject matter covered in the section, and they show you how the material is organized.

Exercise 1 Using Features in a Selection of Text. Answer questions 1–4 about the text sample that follows without reading it. Then, read the text sample and answer item 5.

1. How many headings or sections does the text sample contain? ________________________________

2. What are the sections? ___________________________________________________________________

3. How can you tell that the sections are of equal importance? _______________________________

Chapter 1: The Sun’s Effect on the Skin

The largest and most visible organ of your body, the skin, is greatly affected by the sun.

The Role of Melanin

Melanin is the dark, protective coloring in the skin. The amount of melanin determines whether a person tans or burns in the sun.

Severe Sunburn

Sunburn can be a serious problem, causing fever, chills, and first- and second-degree burn damage to the skin. Sun blisters are one defense the body raises against serious burns.

The Work of Sweat

Without the sweat glands in the skin, the body would overheat and expire. Sweat glands produce about a pint of sweat daily, but in the hot summer, they can produce up to four pints.

Summer Protection Plan

As you take precautions to protect yourself from the sun in the summer, bear in mind the following five tips: (1) always wear sunscreen outdoors; (2) wear a hat when the sun is highest; (3) wear sunglasses; (4) drink plenty of water; (5) if you do begin to burn, get out of the sun.
Using Reading Strategies

**Varying Your Reading Style.** Three types of reading styles are *skimming*, *scanning*, and *close reading*. Depending on your purpose, whether it is reading a novel for pleasure or reading a textbook to prepare for a test, you would use one of the following styles.

**Skimming** the text is looking over it to get a quick overview of the contents.

**Scanning** the text is looking over it for particular information. When you scan, look for words related to your topic or purpose for understanding.

**Close reading** is reading the material carefully for thorough understanding.

**Exercise 1** Skimming the Headings of a Table of Contents. Look at a table of contents from one of your textbooks and skim it to answer the following questions.

1. What is the textbook about?
2. How many units and chapters does the textbook contain?
3. Approximately how many pages are in each chapter?
4. Approximately how long would it take to read each chapter?

**Exercise 2** Scanning for Specific Information. Answer the questions below by scanning the sample text about Scottish poet Robert Burns that follows.

1. What is the title of the passage?
2. What do you think the passage will be about?
3. What happened in 1759? How did you find out quickly?
4. What is the name of the song that Burns wrote? How did you find the song title quickly?
5. For what reason might you read this sample of text closely?

---

**Robert Burns: Scottish Poet**

Robert Burns, who was born in 1759, is Scotland’s national poet. He wrote many poems to be sung to Scottish folk tunes that are etched in the heart of his country’s people. His best known song is probably “Auld Lang Syne,” which is traditionally sung on New Year’s Eve in the United States.

Using Graphic Organizers

When you read, you often find information that is graphically represented. A graphic organizer, a drawing with words, helps you see how ideas in a text are related. When you read, notice the relationships among the ideas presented.

**Exercise 1: Using a Story Map.** Read the short story “A Retrieved Reformation” by O. Henry, which can be found in a literature anthology. Then, fill in the information on each event using the story map provided.

Identifying the Author’s Purpose

Authors generally write for a purpose. They often use certain techniques or methods to achieve their purpose.

<thead>
<tr>

<tbody>
<tr>
<td>To inform</td>
<td>Using facts or explanations</td>
</tr>
<tr>
<td>To instruct</td>

</tr>
<tr>
<td>To sell</td>
<td>Using persuasive techniques</td>
</tr>
<tr>
<td>To entertain</td>
<td>Using amusing or exaggerated situations</td>
</tr>
</tbody>
</table>

When reading nonfiction, notice the author’s choice of words and the details he or she includes. These clues will help you determine an author’s purpose.

Exercise 1

Read the following paragraphs and explain whether the purpose is most likely to inform, to instruct, to offer an opinion, to sell, or to entertain.

1. Before anyone can begin working on a musical, someone must write a libretto, or a script showing the words the actors will speak. This way everyone can follow the story.

2. One day, a teacher was giving a big test to his students. He handed out all of the tests and went back to his desk to wait. Once the test was over, the students all handed the tests back. The teacher noticed that one of the students had attached a $100 bill to his test with a note that read, “a dollar per point.”

   The next class the teacher returned the tests. This student got back his test and $64 in change.

3. Myra Cohn Livingston’s Poem-Making: Ways to Begin Writing Poetry is an excellent handbook for the budding poet. Basing the work on the formal terminology of poetic techniques, Livingston makes the mechanics of writing a poem understandable. She invites young people to “make the image, the thought, even the sound, come alive” and to enjoy the experience of writing a poem.

4. Find a recording of one of the following musicals in your library—Oklahoma!, Carousel, The Sound of Music, The King and I—and listen to the sounds of the composer, Richard Rodgers. Think about which songs you particularly like or dislike, and what qualities the music has or lacks that makes you react as you do.

4. Bill and Rita work on the school newspaper. Bill and Rita must be very smart. generalization
5. The speaker in “Forgotten Language” by Shel Silverstein said: “Once I heard and answered all the questions of the crickets.” The speaker must have imagined conversations in which he or she spoke to crickets, and they answered. generalization

As you read a piece of fiction, determine the author’s theme or central message. Then, you can respond to the work and evaluate it. Use the following questions as a guide to help you comprehend a short story or novel.

Strategies for Reading Drama

Reading drama is different from reading other literary forms because it is designed to be performed for an audience. The story is told mostly through what the actors say (dialogue) and what they do (action). Stage directions in the script indicate how actors should move and how they should speak their lines. As you read a play, determine the playwright’s theme. Then, you can respond to the play and evaluate it. Use the following questions as a guide to help you understand the dialogue and action that make up a play.
